### Appendix A

Story Homes Housing Supply Analysis

### 1 Introduction

- 1.1 This Statement has been prepared by Hive Land & Planning on behalf of Story Homes and responds to the Matters, Issues and Questions released by the Inspectors on 30<sup>th</sup> March 2021. In this submission Story Homes are responding to Matter 5. This Matter 5 Statement is accompanied by Appendix A Housing Supply Analysis, which should be read alongside the responses to the Inspectors' Matters, Issues and Questions.
- 1.2 The involvement of Story Homes in the St Helens Local Plan Examination relates to the continued promotion of the Land south of A580 between Houghtons Lane and Crantock Grove, Windle, Ref 8HS (hereafter referred to as 'Site 8HS'). Story Homes has promoted Site 8HS for the residential development of around 1,100 dwellings and has been undertaken following agreement with the landowners to secure a contractual position on the site.
- 1.3 Site 8HS is currently located within the Green Belt and has been identified as a Safeguarded Site within the Submission Draft St Helens Local Plan 2020 -2035, to be reserved for future residential development until after the plan period, unless a subsequent Local Plan Review proposes to allocate the land for development. In safeguarding Site 8HS, the Council has recognised that Site 8HS represents a suitable and sustainable location for housing and Story Homes welcome and support this recognition.
- 1.4 In the 2016 Preferred Options Draft of the Local Plan however, Site 8HS was identified as a Housing Allocation to come forward within the current Plan Period. This further confirms the Council's acceptance that Site 8HS, as a matter of principle, is a suitable location in which to locate this scale of new housing.
- 1.5 The Council has therefore acknowledged the acceptability of Site 8HS for residential development at every stage of the plan-making process.
- 1.6 This Hearing Statement should be read in conjunction with all the statements being submitted by Story Homes in response to Matters 1, 2, 3, 4, 7, 10 and 11.
- 1.7 We trust that this Statement assists the Inspectors in respect of the Examination.

# 

### 2 Matter 5 – Housing Land Supply

#### Issue 1: Components of Housing Supply

Question 1. Having regard to the Council's responses referred to above, will the up to date housing supply position be clearly shown in the Plan (base date of 31 March 2021)?

2.1 Story Homes consider that Appendix 2 of SHBC007 – Updated Employment and Housing Land Supply Information Document (May 2021) and Table 5.5 contained within Annex 3 to the Schedule of Modifications (May 2021), proposed by MM007 to update Table 4.6 in the Plan, sets out the Council's claimed up to date housing supply position, as outlined in their response to the Inspectors' preliminary questions with a base date of 31 March 2021. However, as set out below in Issue 2, Story Homes do not agree with the analysis and stated outcome of the Council's housing supply position.

# Question 2. Having regard to the Council's responses referred to above, will the components of the housing supply that will meet the housing requirement be clearly shown in the Plan?

2.2 Story Homes consider that SHBC007 – Updated Employment and Housing Land Supply Information Document (May 2021) and Tables 5.3 & 5.4, contained within Annex 3 of the Schedule of Modifications (May 2021), proposed by MM007 to update Table 4.6 in the Plan, sets out the components of the housing supply that will meet the housing requirements. However, as set out below in Issue 2, Story Homes do not agree with the analysis and stated outcome of the Council's housing supply position.

# Question 3. Is the small sites allowance of 93 dpa justified by compelling evidence (see paras 4.10 to 4.13 of SD025)?

- 2.3 As the Inspectors points out, Paragraphs 4.10 4.13 of SD025 provides the rationale for including a Small Sites (sites smaller than 0.25ha) allowance of 93 dpa. Paragraph 70 of the National Planning Policy Framework (NPPF) requires 'compelling evidence' that sites will provide a reliable source of supply is required to include windfall sites as part of anticipated supply.
- 2.4 The Council has provided evidence of small sites completion rates over the last ten years, of which the average rate is 103dpa. The Council notes in paragraph 4.10 that years 2018/19 provided a particularly

high number of small sites due to a high number of apartment schemes. It is considered likely that this trend will continue across the remainder of the Plan period.

2.5 Therefore Story Homes considers that a small sites allowance, of sites smaller than 0.25ha, of 93dpa is supported by adequate evidence.

# Question 4. Should the supply shown within the Plan make an allowance for demolitions or are they accounted for within the net number of homes anticipated to be delivered from each site?

2.6 The 2017 Strategic Housing Land Availability Assessment ('SHLAA'), Examination document reference HOU002, states at Paragraphs 5.7-5.9 that the SHLAA's anticipated yield are estimated on a net basis rather than a gross basis. An annual allowance for demolitions may result in some duplication of that adjustment factor.

#### Question 5. Should empty homes be included as a component of supply?

- 2.7 Paragraph 4.18.17 of the Submission Draft of the Plan states that although bringing empty homes back in to use contributes to meeting housing needs, due to the limited control of the Council to influence this, the contribution is not counted towards the housing supply figures in Table 4.6.
- 2.8 Planning Practice Guidance states that "to be included as a contribution to completions it would be for the authority to ensure that empty homes had not already been counted as part of the existing stock of dwellings to avoid double counting"<sup>1</sup>.
- 2.9 Therefore, Story Homes agree with the Council that empty homes should not be included as a component of supply to avoid double counting and this is in accordance with Planning Practice Guidance.

Question 6. Does the Plan show sufficient flexibility in the supply to ensure that the housing requirement will be met over the Plan period (the Council's latest figures show a residual requirement of 7778 units and potential housing supply of 8384 units assuming a Plan period until 2037)?

2.10 The Council's most up to date figures, included within Appendix 2 of SHBC007 – Updated Employment and Housing Land Supply Information Document (May 2021), indicate that the Council has a residual requirement of 7132 units and potential housing supply of 7831. According to the Council's figures, this

<sup>&</sup>lt;sup>1</sup> Paragraph 030, Ref ID: 68-030-20190722, Housing supply and delivery PPG.

flexibility results in a potential oversupply of 699 dwellings. Considering the Council's annual housing requirement figure of 482 dpa, 699 units is equivalent to approximately 1.45 years of supply or a buffer of 7.7%. 699 units spread across the remainder of the Plan period would result in approximately 44 units additional per year.

2.11 Paragraphs 11a and b of the NPPF states (with our emphasis):

'a) plans should positively seek opportunities to meet the development needs of their area, and be sufficiently flexible to adapt to rapid change;

b) strategic policies should, <u>as a minimum</u>, provide for objectively assessed needs for housing and other uses, as well as any needs that cannot be met within neighbouring areas, unless:

i) the application of policies in this Framework that protect areas or assets of particular importance provides a strong reason for restricting the overall scale, type or distribution of development in the plan area;

ii) any adverse impacts of doing so would significantly and demonstrably outweigh the benefits, when assessed against the policies in this Framework taken as a whole'.

- 2.12 As Story Homes' Matter 3 Statement outlines, exceptional circumstances exist to release land from the Green Belt, thereby not providing a strong reason to restrict development. The Government is clear that its objective is "significantly boosting the supply of homes"<sup>2</sup> and whilst St Helens do commit to a housing requirement which exceeds its objectively assessed need, Story Homes do not consider the Plan to be sufficiently flexible to adapt to rapid change.
- 2.13 Story Homes consider that the 15% reduction in SHLAA capacity for years 6-16 of the Plan period for non-delivery (referred to after this point as a 'lapse rate') is not providing flexibility but rather being <u>realistic</u> about the proportion of SHLAA sites that will be developed across the Plan period. The Council's strategy to maximise housing delivery on previously developed ('brownfield') land within existing urban areas (to foster urban regeneration) further exacerbates this issue and this is exemplified by virtue of the fact that the Council cannot currently demonstrate a five year housing land supply. The Council itself states that the Green Belt increased allowance will help ensure a flexible and deliverable supply can be maintained given the "inherent uncertainty" associated with the development of some of the brownfield land sites and

<sup>&</sup>lt;sup>2</sup> Paragraph 55, National Planning Policy Framework

market uncertainty associated with COVID19<sup>3</sup>. Therefore, the Council admits that brownfield sites are not a reliable source of supply and acknowledge the need to provide for flexibility.

2.14 Notwithstanding the comments above, Story Homes Housing Land Supply Analysis (see Appendix A to this Matter 5 Statement), demonstrates that the Council could face a shortfall across the Plan period of 2846 dwellings, taking in to account the reduction in the Council's claimed housing land supply position and the necessary increase to the housing requirement. As Story Homes' Matter 2 Statement and Story Homes Housing Land Supply Analysis at Appendix A explains, it is considered that the annual housing requirement should be around 570 dpa resulting in a residual requirement of 8896 dwellings over the remaining plan period (accepting the completions already accounted for from 2016/17 to 2020/21). Story Homes analysed the supply evidence provided by the Council and discounted a number of sites or revised site trajectories. Overall, we conclude that the potential shortfall between the required Green Belt capacity and capacity of allocated Green Belt sites is 2846 dwellings (see Table 4).

#### Table 4 - Story Homes' Shortfall Analysis (with housing requirement adjustment to 570 dpa)

Overall required capacity of sites to be removed from the Green Belt (Table 5.4)	4775
Story Homes' Total Plan period capacity of allocated sites removed from the Green Belt	1929
(sites 1HA, 2HA, 4HA, 5HA, 7HA and 8HA) (Table 5.4)	
ANTICPATED SHORTFALL	2846

2.15 Even without an adjustment to the housing requirement, Story Homes conclude that the Council may face a shortfall of 985 dwellings (see Table 5) due to being over optimistic in relation to their supply from non-Green Belt sites and Green Belt allocations. As outlined below, Story Homes' site (8HS) at Windle should be allocated to help make up this shortfall in supply.

# Table 5 – Story Homes' Shortfall Analysis (without housing requirement adjustment, maintaining 486 dpa)

SHBC's Total Housing Supply over Plan period (Table 5.5)	7831
Story Homes' Housing Supply over Plan period (Table 5.5)	6846
ANTICPATED SHORTFALL	985

<sup>&</sup>lt;sup>3</sup> Paragraph 4.33 – SD025 Housing Need and Supply Background Paper (October 2020)

- 2.16 The question marks arising from the Council's claimed housing supply position and the need for this discount to be applied are further reinforced by the fact that the Council cannot currently demonstrate a Five Year Housing Land Supply<sup>4</sup>.
- 2.17 As Story Homes' Matter 3 Statement outlines, we do not consider that the Plan has identified sufficient land for release from the Green Belt to meet housing needs. As such, land currently proposed to be safeguarded (specifically, Site 8HS which was identified as a Housing Allocation at the Preferred Options stage) should be identified as a housing allocation, or at the very least a 'Plan B' site to be brought forward early should the Council continue to not be able to demonstrate a Five Year Housing Land Supply. This is an approach that was endorsed by the Inspector conducting the Examination into the now adopted West Lancashire Local Plan, as set out within our Matter 3 Hearing Statement.

#### Question 7. Is the flexibility in housing supply provided by the Green Belt sites justified?

- 2.18 Story Homes welcome the contribution that Green Belt sites make towards the flexibility in St Helen's housing supply.
- 2.19 A 20% increased allowance for Green Belt required capacity was added in Table 5.4<sup>5</sup>, which is stated to allow for contingencies such as "infrastructure provision, delays, lead-in times to start of housing delivery etc.". The Council states that this increased allowance will help ensure a flexible and deliverable supply can be maintained given the "inherent uncertainty" associated with the development of some of the brownfield land sites and market uncertainty associated with COVID19<sup>6</sup>. In principle, Story Homes agree that a 20% increased allowance is sensible.
- 2.20 This is not least due to the fact that the spatial distribution of SHLAA sites (towards town centre and inner urban sites) will not result in a sustainable pattern of development that meets all <u>identified housing</u> <u>needs</u> across the Borough, such as affordable and family housing. As demonstrated within SHBC011, development is heavily skewed towards the town centre and other urban wards. This could result in reduced contributions towards wider infrastructure provision due to viability issues associated with

<sup>&</sup>lt;sup>4</sup> SHBC007 Appendix 2 indicates the Council can demonstrate a 4.6 year supply.

<sup>&</sup>lt;sup>5</sup> Table 5.4, Appendix 3: Update of Table 4.6 of the LPSD, **SHBC007** – Updated Employment and Housing Land Supply Information Document (May 2021)

<sup>&</sup>lt;sup>6</sup> Paragraph 4.33 – SD025 Housing Need and Supply Background Paper (October 2020)

developing brownfield sites in inner St Helens. Furthermore, most SHLAA sites are brownfield located within affordable housing zones 1 and 2 and so will not be required to contribute towards affordable housing within the Borough (Policy LPC02), which will result in a shortfall in affordable housing delivery against the 117 affordable dpa requirement identified in the SHMA.

- 2.21 As set out above, a significant adjustment is needed to the Council's claimed housing land supply position and housing requirement which will result in a shortfall of 2846 dwellings over the plan period and so the flexibility of the resulting 699 dwellings above the residual requirement is not considered sufficient to ensure St Helens can adapt to rapid change or ensure that the new Green Belt boundaries can endure beyond the Plan period.
- 2.22 Additional Green Belt sites such as Site 8HS should be allocated to increase the flexibility provided by this source of housing land supply.

# Question 8. Would greater certainty be provided within the Plan if SHLAA sites (or the larger sites) were to be allocated (see SHBC001 – PQ52)?

- 2.23 Story Homes agrees with the Council that <u>all</u> SHLAA sites do not need to be allocated in the Plan. However, as the Council's answer to PQ52 indicates, SHLAA sites over 300 units that had not commenced at the time of publication of the 2017 SHLAA are proposed to be allocated in the Plan.
- 2.24 Allocating additional SHLAA sites in the Plan is considered unnecessary, as sites without planning permission identified in the SHLAA are included within proposed Policy LPA05 as a component of the Council's housing supply. Therefore, if the sites are deliverable, planning applications will be submitted and approved in accordance with Section 38(6) of the Planning & Compulsory Purchase Act 2004, as the proposals will be in accordance with the Development Plan (once the St Helens Borough Local Plan 2020-2035 is adopted). No further certainty would be gained by allocating the sites and it is not necessary to ensure the Plan's soundness.

#### Issue 2: The Housing Trajectory

2.25 Figure 4.3 will be further amended by SHBC007 – Updated Employment and Housing Land Supply Information Document (May 2021). Story Homes have analysed the evidence that supports the housing trajectory and refer the Inspectors to Appendix A.

- 2.26 Story Homes' in-depth analysis considers: SHBC007; the Council's updated evidence contained within SHBC004 Further evidence on Housing supply, including updated SHLAA Site Assessments (February 2021) and Story Homes' previous SHLAA assessment comments. Appendix A discounts a number of sites as either undeliverable or undevelopable. Sites were discounted in Story Homes' analysis for reasons including:
  - a. Evidence to suggest long term lack of developer interest;
  - b. Specific site constraints considered to render a site unviable to develop e.g. multiple ownerships, landlocked, mature trees;
  - c. Sites being in continuous active alternative uses;
  - d. Small sites being excluded from outline development phasing plans;
  - e. Lack of evidence to demonstrate historically stalled sites are developable;
  - f. Type of site amenity or valuable open/green space.
- 2.27 Story Homes' response to Questions 10b and 10c below provide examples to demonstrate the methodology above. Therefore, due to the fact that a number of sites have been discounted from the Council's analysis, Story Homes do not consider that the evidence that supports the trajectory, in terms of the SHLAA supply, is based on realistic assumptions.
- 2.28 Story Homes do not however challenge the Council's typical build out rates and lead in times assumed for the site allocations, as outlined further in our response to Question 14 below.
- 2.29 Furthermore, the Council can only demonstrate 4.6 years supply of deliverable housing land. Not being able to demonstrate 5 years supply of deliverable housing land at the outset of a Plan period demonstrates the necessity to allocate further Green Belt sites, such as Site 8HS, for development over the Plan period to ensure the housing requirement is met, as a minimum.

#### Question 10. In particular:

- a. Should a lapse rate be applied to sites expected to deliver in the next 5 years as well as those delivering later in the Plan period (see SHBC001 PQ50)?
- 2.30 The Council indicated in their answer to PQ50 that a lapse rate had not been included for sites expected to deliver within the next 5 years as those sites are considered deliverable.

2.31 Story Homes analysis provided at Appendix A makes appropriate adjustments to any sites included within the 0-5 years supply. This was either through the site being discounted completely, or by moving the trajectory to Years 6-15. The Council then apply a lapse rate to SHLAA sites falling within years 6-15. Story Homes agree with this general approach and it is just the assumptions reached in respect of the deliverability and developability of individual sites where there is a remaining dispute.

# b. Is the evidence about the delivery of SHLAA sites contained within the SHLAA together with SD025 and SHBC004 robust?

- 2.32 See also the response to Question 9. Story Homes do not consider the evidence relating to the delivery of SHLAA sites outlined above is robust. As demonstrated by the analysis in Appendix A, the Council has not provided sufficient evidence to rely upon a number of sites as part of its SHLAA supply as developable sites.
- 2.33 For example, the Council has included site HL525 within its SHBC004 update, stating:

"No change. Site has outline planning permission and demolition of some buildings commenced in 2017".

- 2.34 This evidence ignores the fact that the planning permission required that a reserved matters application had to be made within three years of the outline planning permission. No such applications for reserved matters approval have been made according to the Council's website. The permission has therefore lapsed and 90 units will not be delivered within 0-5 years as the SHLAA indicates.
- 2.35 In addition, Site 59 is included within the SHLAA with an indicative capacity of 13 dwellings. The Council provided no updated evidence in their SHLAA proforma updates in SHBC004. Considering the site was included within the 2012 SHLAA as deliverable within 0-5 years, there is no more recent evidence of developer interest and due to the specific constraints of the site, Story Homes discounted the site from the SHLAA developable total. Appendix A provides full details of the robust analysis that has been carried out by Story Homes to justify the stance being taken within this Hearing Statement.
- 2.36 In total, Story Homes have applied discounts to the Council's claimed housing yield in respect of <u>30</u> SHLAA sites. Table 1.2 of Appendix A to this Hearing Statement provides details of these 'Disputed Sites' and the evidence Story Homes has provided to justify the discount in respect of each discounted site.

#### c. Is the evidence about delivery from stalled sites robust (see SHBC001 – PQ53)?

2.37 The Council's response to PQ53 states that each stalled site is considered developable as they have each stalled for unique site specific reasons, furthermore discussions with landowners and stakeholders has informed delivery assumptions. Yet very little has been provided by way of robust and tangible evidence. Story Homes therefore consider that this is not robust evidence and so appropriate discounts have been applied to SHLAA sites within our analysis at Appendix A where this applies.

#### d. Are the assumptions about delivery from allocations robust (discussed under Matter 4)?

- 2.38 Please refer to our response to Question 14 within this Statement regarding the assumptions made around build out rates and lead in times for developable sites, which Story Homes do not dispute.
- 2.39 Story Homes Housing Supply Analysis does however recommend removing 91 units from the trajectory of site 7HA and 58 dwellings from site 9HA. Please refer to Table 1 at Appendix A which provides the evidence and rationale for these discounts.

#### e. Are lead in times and build out rates realistic?

2.40 Please refer to our response to Question 14 within this Statement. Story Homes raise no objection in respect of the lead in times and build out rates as a matter of principle.

# f. Is the significant spike in delivery shown in the trajectory between 2025/26 and 2026/27 realistic and supported by evidence (see SHBC001 – PQ54)?

2.41 Story Homes have no specific comments on these two years of the housing trajectory, other than to make the point that ultimately the housing market will dictate the rate at which new development will come forward and so there will inevitably be variations to the housing trajectory. Ultimately, as there is still 10 years to run in respect of the plan period after these two years, the vast majority of these sites will be completed by 2037 and so in respect of housing land supply throughout the plan period, there is no change to the overall position, except where site have been discounted within our analysis at Appendix A.

#### Issue 3: Five Year Housing Land Supply

#### Question 11. Is the use of a 5% buffer to calculate the housing land supply position appropriate?

2.42 The Council's Updated Employment and Housing Land Supply Information Document (May 2021) indicates that the Council will apply a 5% buffer to the housing requirement for the first five year period of the plan. The document also confirms that the Council have 4.6 years of housing land supply. It is not clear whether the Council wishes to confirm a five year supply of deliverable sites through a recently adopted plan. Therefore, it is not clear whether the Council should apply a 5% or 10% buffer as their preference has not been stated.

#### Question 12. Is the inclusion of 465 units from small sites in the 5-year supply justified?

2.43 As per Story Homes' response to Question 3 set out within this statement, it is agreed that a small sites allowance of 93 units per annum is justified based on the evidence of delivery rates from this source over the last 10 years, which is slightly lower than the mean average of 103 dpa over the last ten years due to the Council having a couple of unusually high levels of completions on small sites. Therefore, the inclusion of 465 units to be provided on small sites within the 5 year supply is justified.

# Question 13. Generally, are the assumptions about the delivery from commitments, SHLAA sites and allocations within the 5-year supply realistic?

2.44 Story consider that these assumptions are not realistic. Please refer to our response to Question 6 and the Story Homes Housing Supply Analysis provided at Appendix A.

#### Question 14. Are lead in times and build out rates within the 5-year supply realistic?

2.45 The lead in times and build out rates are set out within paragraphs 4.20 and 4.21 of the Council's Housing Need and Supply Background Paper published in October 2020 (ref: S025). Story Homes agrees these assumptions are realistic, however these assumptions should take account of site specific requirements on a case by case basis. Appendix A to this Statement assesses each of the sites within the Council's latest supply and applies these assumptions but accounts for site specific requirements, such as need for upfront infrastructure and remediation works, which are often required for brownfield sites.

Question 15. Are there any measures that the Council can take to provide more elbow room in terms of the 5-year supply? Note - SHBC001 – PQ55 refers to the possibility of a stepped housing requirement and/or increasing the small sites allowance.

- 2.46 The Council's response to PQ55 in document SHBC001 suggests the small sites allowance could be increased to 103 units per annum highlighted by the evidence provided within paragraph 4.10 of SD0025. The average of 93 units on small sites is calculated from monitoring period 2007/08 to 2016/17 where there was an average of 93 units complete per annum on small sites. The updated evidence provides an average from 2010/11 to 2019/20, with 2018/19 reporting 196 units completed and 2019/20 reporting 57 units completed resulting in an average of 103 units per annum.
- 2.47 Story Homes disagree with this approach being an option as this increased delivery rate on small sites is heavily inflated by completions in 2018/19 (196 units per annum), whilst in 2019/20 only 57 were complete which indicates a broad ranging completion rate from this source. Furthermore, increasing the small sites allowance to that suggested, would only result in an increase of 50 units included within the 5 year supply. This would only yield a revised calculation of 4.7 years of supply based on the Council's assumptions set out within Appendix 2 of SHBC007. Finally, increasing the anticipated number of units to be delivered on small sites reduces the possibility for the Council to deliver strategic, well-planned housing growth more likely to provide higher developer contributions towards wider infrastructure needs and the delivery of affordable housing.
- 2.48 A stepped housing requirement is also suggested within the Council's response to PQ55. However, as set out within Table 1 of the Appendix attached to this Statement, Story Homes consider that the Council have made unrealistic assumptions about a number of SHLAA sites included within the supply. Furthermore, our Matter 2 Statement outlines the reasons why the housing requirement should be increased to 570 units per annum.
- 2.49 Story Homes consider that the only measure the Council could take is to allocate the most suitable sites currently proposed to be safeguarded for future housing development. On this basis, Site 8HS should be identified as a Housing Allocation, which would allow for sufficient flexibility to be achieved as first completions are anticipated in 2022/23 (as per the Infrastructure Delivery Statement provided at Appendix

A to our Matter 4 Statement), which would make a positive contribution towards the Council's five year housing land supply position.

#### Question 16. Will there be a five-year supply of deliverable housing sites on adoption of the LP?

2.50 No, the Council have confirmed that they can only demonstrate 4.6 years of housing land within their most recent housing supply calculations set out within document SHBC007. Story Homes agree that the Council cannot demonstrate 5 years of housing land upon the adoption of the Local Plan and that the presumption in favour of sustainable development would apply.

#### Issue 4: The wording of Policy LPA05

#### Question 17. Will Policy LPA05 as worded be effective in maintaining delivery through the Plan period?

- 2.51 Given that the Council cannot currently demonstrate a five year supply of housing land, Policy LPA05 is crucial to ensure a plan-led approach for housing growth upon the adoption of the Plan. Therefore, Story Homes propose the following amendment to this policy (suggested modifications shown in italics):
  - 1. An additional source of supply should be added after 2(e):;

### f) Safeguarded land brought forward for development during the plan period should the Council not be able to demonstrate a deliverable 5 year supply of housing land

2. Point 4(b) should also state that where the deliverable housing land supply falls below the required level, development on specifically identified safeguarded land sites such as Site 8HS will be supported and prioritised over other sites to increase housing supply ("Plan B" sites – see Story Homes' Matter 3 Statement) without the need for a Local Plan review:

b) there is a deliverable supply of housing that is sufficient to provide at least 5 years' worth of new housing development against the housing requirement. The 5 year land supply to be maintained shall include any buffer that is required under national policy. If annual monitoring demonstrates the deliverable housing land supply falls significantly below the required level, development on 'Plan B' (or reserve) safeguarded land sites will be supported and prioritised over other sites to increase the supply without the need

### for a partial or full plan review. a partial or full plan review will be considered to bring forward additional sites.

2.52 The amendment to the approach (and wording) of this policy will then ensure that the Council can adopt a flexible approach in respect of maintaining a five year housing land supply throughout the plan period, without the need to consider further revisions to the Green Belt boundary as part of a subsequent Local Plan review.

3.	Conclusion and Recommendations	10
4.	Analysis Tables	11

### 1. Introduction

- 1.1 This Appendix 1 relates to Story Homes' Matter 5 Hearing Statement. This appendix, and the Statement, has been prepared by Hive Land & Planning on behalf of Story Homes.
- 1.2 The involvement of Story Homes in the St Helens Local Plan Examination relates to the continued promotion of the Land south of A580 between Houghtons Lane and Crantock Grove, Windle, Ref 8HS (hereafter referred to as Site 8HS). Story Homes has promoted Site 8HS for the residential development of around 1,100 dwellings throughout the Local Plan preparation process. This promotion has been undertaken following an agreement with the landowners.
- 1.3 Site 8HS is currently located within the Green Belt and has been identified as a Safeguarded Site within the Submission Draft St Helens Local Plan 2020 -2035, to be reserved for future residential development until after the plan period, unless a subsequent Local Plan Review proposes to allocate the land for development. In safeguarding Site 8HS, the Council has recognised that Site 8HS represents a suitable and sustainable location for housing and Story Homes welcome and support this recognition.
- 1.4 In the 2016 Preferred Options Draft of the Local Plan however, Site 8HS was identified as a Housing Allocation to come forward within the current Plan Period. This further confirms the Council's acceptance that Site 8HS, as a matter of principle, is a suitable location in which to locate this scale of new housing.
- 1.5 The Council has therefore acknowledged the acceptability of Site 8HS for residential development at every stage of the plan-making process.
- 1.6 This Appendix and the Hearing Statement which it supports should be read in conjunction with all the statements being submitted by Story Homes in response to other Matters outlined by the Inspectors.
- 1.7 We trust that this Appendix assists the Inspectors in respect of the Examination.
- 1.8 The remainder of this appendix is structured as follows:

#### Section 2: Methodology

Section 3: Conclusions

Section 4: Analysis Tables

### 2. Methodology

- 2.1 This Section relates to the methodology, used by Hive Land & Planning on behalf of Story Homes, to analyse St Helens Borough Council's (SHBC's) Housing Supply.
- 2.2 Draft Policy LPA05: Meeting St Helens Borough's Housing Needs of the emerging *St Helens Local Plan 2020-2035*, Hive Land & Planning's Matter 2 Statement and SHBC007 Updated Employment and Housing Land Supply Information Document (May 2021) provide the starting point for the analysis that follows in this Appendix A.
- 2.3 Other documents referred to include:
  - a. SHBC004 Further evidence on Housing Supply, including updated SHLAA Site Assessments
  - b. SD025 Housing Need and Supply Background Paper, October 2020
  - c. **SHBC005** Response to Inspectors' Preliminary questions on Site Allocations and Safeguarded Land
  - d. HOU002 St Helens Strategic Housing Land Availability Assessment (SHLAA)
- 2.4 **Draft Policy LPA05** sets out the housing requirement for the Borough of St Helens and outlines the sources from which the growth will be met. The relevant section of the draft policy is reproduced here:

#### Extract from proposed Policy LPA05: Meeting St. Helens Borough's Housing Needs

1. In the period from 1 April 2016 to 31 March 2035 a minimum of 9,234 net additional dwellings should be provided in the Borough of St.Helens, at an average of at least 486 dwellings per annum.

- 2. The housing requirement will be met from the following sources:
- a) Completions;
- b) Sites with planning permission;

c) Housing allocations shown on the Policies Map and listed in Table 4.5;

d) Sites without planning permission identified in the Strategic Housing Land Availability Assessment (SHLAA); and

e) 'Windfall' development, including development on small sites not individually identified in the SHLAA, sub-division of dwellings and conversions / changes of use

- 2.5 St Helens Borough Council have provided an Updated Employment and Housing Land Supply Position as of 31.03.2021 (Examination Document SHBC007). The document provides an update on the sources of the supply of the housing requirement (Para 2 of LPA05).
- 2.6 Story Homes' **Tables 2 and 3**, included within this document correspond to SHBC's Housing Trajectory (as of 31.03.2021), including an update to all 2017 SHLAA sites and any new sites with planning permission, which is contained within **Appendix 1 of SHBC007**. Tables 2 and 3 also include reference to previous analysis undertaken by Story Homes in 2019 and **SHBC004**, which provided updated SHLAA proformas and a housing trajectory (dated February 2021).
- 2.7 Appendix 3 of SHBC007 updates and simplifies Table 4.6 (Housing land requirements and supply 2016 until 2035) of the Local Plan Submission Draft. SHBC007 also extends the Plan Period to 2037, in accordance with ISNP006. Story Homes' Table 4 corresponds directly to Appendix 3 of SHBC007.

#### Housing requirement

- 2.8 We refer the Inspectors to Hive Land & Planning's Matter 2 Statement, which concludes that St Helens should be planning for a minimum of around 570 dwellings per annum.
- 2.9 This annual housing requirement provides the starting point for Story Homes' analysis.

#### Completions

2.10 Story Homes' analysis accepts SHBC's reported net completions from 1 April 2016 – 31 March 2021.

#### Housing Allocations

2.11 Story Homes have analysed the Council's Local Plan allocations and their associated trajectories in Tables2 and 3 below.

#### SHLAA Capacity

- 2.12 SHBC's total SHLAA capacity consists of sites both with and without planning permission. SHBC's SHLAA capacity is set out in SHBC007 Updated Employment and Housing Land Supply Information Document (May 2021).
- 2.13 Updated SHLAA proformas, providing updated evidence supporting SHLAA sites were provided by SHBC in SHBC004 Further evidence on Housing Supply, including updated SHLAA Site Assessments.
- 2.14 It should be noted that Story Homes' analysis discounts a number of sites that SHBC considers are 'developable' and discounts them from the analysis of the Housing supply. As per the NPPF definition of 'developable', sites should be in a suitable location for housing development with a reasonable prospect that they will be available and could be viably developed at the point envisaged.
- 2.15 Hive Land & Planning have extensively researched the SHLAA sites and analysed each site individually upon its merits and concluded each site's developability, in our professional opinion. Tables 1.1 and 1.2 provide a summary of the discounted sites.

#### "Windfall" Development

- 2.16 SHBC identifies a "small sites allowance" of 93 dwellings per annum. Story Homes are satisfied that Table
  4.4 of SD025 Housing Need and Supply Background Paper, October 2020 provides sufficient evidence that the contribution made by small sites previously is likely to continue.
- 2.17 Story Homes' analysis therefore allows for a 93 dpa small sites allowance, in accordance with SHBC's calculations.

#### Lapse Rates

2.18 SHBC's trajectory includes a 15% SHLAA capacity reduction to account for non-delivery. This reduction is applied to sites anticipated to deliver housing between years 6-16 of the Plan period. Story Homes has applied the same allowance within our analysis below.

#### Green Belt Capacity Increase

- 2.19 SHBC's trajectory includes a 20% increase in allowance to be added to Green Belt sites, which Appendix3 of SHBC007 states is to "allow for contingencies e.g. infrastructure provision, delays, lead-in times to start of housing delivery etc".
- 2.20 Story Homes has applied the same 20% increased capacity allowance within our analysis in Table 4 below.

### 3. Conclusion and Recommendations

- 3.1 Story Homes' analysis in the Tables below have resulted in the final shortfall calculation of 2,846 dwellings, shown in **Table 5**.
- 3.2 The comments in Table 4, read alongside Section 2 above, explain the methodology, assumptions and calculations undertaken to arrive at the 2,846 dwelling shortfall figure.
- 3.3 In short, Story Homes' Matter 2 Statement calculates a revised housing requirement figure of 570 dwellings per annum. Story Homes have also analysed the SHLAA sites trajectory (SHBC007), relied upon by SHBC as a component of their housing supply. The analysis, contained predominantly within Table 3 below, demonstrates that a number of the sites relied upon by the Council should be discounted as contributions towards the requirement.
- 3.4 The analysis in Table 4 outlines Story Homes' commentary upon SHBC's methodology and calculations and provides reasoning for any deviations from SHBC's analysis.
- 3.5 This higher housing requirement, coupled with the discounted SHLAA supply, has resulted a shortfall of 2,846 dwellings over the Plan period.
- 3.6 As the SHLAA provides an indication of developable housing sites, it is assumed that there remains no further supply of sites suitable for development that are likely to come forward within the Plan period.
- 3.7 Therefore, the shortfall should be met by the allocation of further Green Belt land, currently proposed to be safeguarded for development beyond the Plan period. Land south of A580 between Houghtons Lane and Crantock Grove, Windle (Site 8HS) can make a significant contribution towards addressing such a shortfall. Story Homes are promoting the site for development of around 1,100 dwellings.
- 3.8 In conclusion, the analysis outlined within this Appendix A to Story Homes' Matter 5 Hearing Statement, has clearly demonstrated that SHBC has a shortfall of housing supply across the Plan period, to 2037. Therefore, it is essential to allocate further sites in the Green Belt for development at this stage in order to ensure that housing needs will be met within the plan period.

1	Land rear of 1-27 Station Road	Gr	0.4	There are no policy constraints to delivering residential development at this location and there are no known legal constraints. A number of recent pre-application enquiries indicate developer interest of the site. 2012 SHLAA considered site deliverable in 0-5 years, however no progress to date. In the absence of evidence that the site of an application, the deliverability of the site has been moved to 6-10 years.	12	0	0	12	Live planning application for 14 units (P/2019/0794/FUL)	Live planning application for 14 units awaiting decision (P/2019/0794/FUL)	0	12	0	0	12	2 0		12	0	12	12	0	0	12	0	Planning application P/2019/0794/FUL withdrawn & new outline application submitted P/2021/0277/OUP. Withdrawn full application raised issues relating to archaeology, highways, remediation that require resolution and may delay commencement. It remains reasonable to assume the site will be developed within the Plan period.	12	0	0	12
10	Land at junction of Sunbury Street and Fir Street	Br	0.82	An application (P/2018/0882/FUL) for 30 dwellings on site is awaiting decision. The development trajectory and capacity have been updated accordingly	30	0	0	30	Site gained planning permission in May 2019 (P/2018/0882/FUL) for the erection of 30 dwellings	N/A	0	30	0	0	30	) 0		30	0	30	30	0	0	30	0	Pre-commencement conditions discharged, including a construction phasing programme which indicates completion within 54 weeks of commencement. Commencement expected in 2021.	30	0	0	30
13	Land rear of Carnegie Crescent and Goodban Street	Br	0.82	The site is considered likely to have financial viability issues. The site is currently used as a car park. It is within the sole ownership of Helena Homes. The site is subject to an expired outline and reserved matters approval on the site from 2004 and 2006.	7	0	0	7	No change. Site is in Helena Homes ownership who have indicated that they still intend to develop it	No change. Site is in local authority ownership.	0	0	7	0	7	0		7	0	7	0	7	0	7	0	The site was the subject of outline planning permissions dating back to 2004 and 2006, which have both expired. There is no current planning application submitted. Nevertheless, the site is developable within the plan period.	0	7	0	7
16	Land at Egerton Street																	12	0	12	12	0	0	12	0	The site was not considered developable by the 2017 SHLAA. Nevertheless, P/2020/0583/FUL, an application for 12 units, was approved in December 2020. The applicants have subsequently applied to	12	0	0	12

ref	Site Name	Lan d Typ e	Size (ha)	Story Homes Comments		6- 10 yrs	11- 15 yrs	Tot al	Change since 2017 SHLAA as of 31.03.20	Further changes to proformas since 2017	Pre- 20	0-5 yrs	6- 10 yrs	11- 15 yrs	To al	t Post 203	t Sit	Co mpl ete d	Ou tsta	0-5	_	11-	Plan Peri od	Tota I Post 2035	Response to update	0-5	6-10	11-16	Plan Period Total
																									discharge pre-commencement conditions. It is therefore reasonable to assume the site will be built out.				
18	Land at Somerset Street and Sussex Grove	Br	2.21	In the 2012 SHLAA, the site was anticipated to come forward in the 0-5 year period. Despite this, there has been no activity on the site in this time. It is noted the site is an awkward shape and is likely to be constrained by the existing surrounding residential properties. Despite these concerns, the anticipated trajectory of the site has been accepted.	0	66	0	66	No change. This site is in Helena Homes ownership who have indicated that they still intend to develop it.	No change. This site is in Torus62 (Housing Association) ownership who have indicated that they still intend to develop it	0	0	66	0	66	0	66	0	66	0	66	0	66	0	The site is the subject of previously lapsed planning permissions. There are no current planning applications pending consideration by the Council. Story Homes' previous concerns regarding the site are still relevant but the site remains developable within the Plan period.	0	66	0	66
19	Leyland Green Road	Gr	0.53	Topography of the site may limit viability of the site yet due to previous developer interest (expired planning permission from 2005) it is reasonable to expect the site to come forward in a later trajectory than the 2017 SHLAA identified. Site trajectory kept in 5 year period in 2012 SHLAA yet due to the lack of evidence that developer is interested in site it is not reasonable to expect it to come forward within 5 years.	0	7	0	7	P/2019/0728/FUL – application for 9 dwellings – withdrawn – 26.11.19. United Utilities objected to the site layout as it would compromise their ability to access the significant water main to the north of the site	Planning permission has been granted for 8 dwellings (reference: P/2020/0478/FUL).	0	8	0	0	8	0	9	0	9	9	0	0	9	0	No pre-commencement conditions discharged since full planning permission granted in December 2020 but likely that the site can be delivered within 5 years.	8	0	0	8
22	Land at corner of Fairclough Street and Wargrave Road	Br	0.83	Site has expired planning approval from February 2011 for apartments. Due to concerns with viability the apartment scheme was moved back from the 2012 SHLAA trajectory. Site may require remediation. There is therefore considerable uncertainty	0	14	0	14	No change	No change. There is still developer interest in the site	0	0	14	0	14	0	14	0	14	0	14	0	14	0	Site is developable within the plan period, despite the absence of an extant planning permission.	0	14	0	14

				Story Homes Analysis	201	9			Council's Feb 2021 Response								Council's May 2021 Update								Story Homes Response May 2021				
ref	Site Name	Lan d Typ e	Size (ha)	Story Homes Comments	0- 5 yrs	6- 10 yrs	11- 15 yrs		Change since 2017 SHLAA as of 31.03.20	Further changes to proformas since 2017	Pre- 20	0-5 yrs	6- 10 yrs	11- 15 yrs	Tot al	Post 2035	Sit e Ca pa city	Co mpl ete d	Ou tsta ndi ng	0-5	6- 10	11-	Plan Peri od	Tota I Post 2035	Response to update	0-5	6-10	11-16	Plan Period Total
23	Liverpool Arms and former Sacred Heart RC Church and School, Borough	Br	0.83	about the delivery of the site. The site is largely clear and in a derelict state. A previous outline application (P/2004/1101) demonstrates some developer interest in the site. Overall it is therefore considered	0	0	29	29	No change, but development of the site remains a priority for the Council given its prominent town centre location.	No change, but development of the site remains a priority for the Council given its prominent town centre location.	0	29	0	0	29	0	29	0	29	29	0	0	29	0	SHBC update indicates the site is now within Local Authority ownership, which increases the likelihood of development on the site but in the absence of a planning application, there is still only a reasonable chance of development on the site – 6-10 years may be a more	0	29	0	29
25	Road Alexandra Park – Former Pilkington HQ	Br	10.8	that there is a reasonable chance of development on the site. The site is now partially vacant, but there has been no immediate developer interest to date in the form of planning application. In the absence of additional evidence about the short-term deliverability of the site, the delivery of the total capacity has been split over 6-10 and 11-15 years	0	16 2	0	162	No change. There is still developer interest in the site	No change. There is still developer interest in the site and there has been pre-application discussion for part of this site.	0	0	16 2	0	162	0	16 2	0	162	0	16 2	0	162	0	realistic trajectory. There remains the absence of developer interest in the form of a planning application. It seems unlikely that the site could be delivered within the next 6-10 years considering the absence of a planning permission and timescales surrounding the conversion of a Grade II Listed Building. However, the site remains developable within the Plan period should a developer	0	0	162	162
27	Former Bethell Mission Bowling Green, Marsden Avenue	Gr	0.27	Site has an expired permission (P/2010/0638) and there is no clear evidence of developer interest in the site and the site and no progress on the site despite it being identified as deliverable within the next 5 years when assessed in the 2012 SHLAA. However there is a reasonable prospect that the site could be viably developed. The site is therefore considered developable	0	0	10	0	No Change	No Change	0	0	10	0	10	0	10	0	10	0	10	0	10	0	come forward. There remains no clear evidence of developer interest in the site and no progress made, despite the site being identified as developable in both the 2012 and 2017 SHLAA. The SHLAA Proforma update indicates that the site is being considered for inclusion within a funding bid for small sites funding from Homes England. Despite these concerns, the site remains developable and the Council's endeavours to secure funding increases the likelihood of the site being developed. We will monitor the outcome of the funding bid.	0	10	0	10
31	Former Sutton Arms PH,	Br	0.35	The site requires investigation due to the potential presence of	0	18	0	18	No change.	No change. There is still developer interest in the site and there has been	0	0	18	0	18	0	18	0	18	0	18	0	18	0	Due to the size of the site and the potential issues associated with its development, such as	0	0	0	0

				Story Homes Analysis	2019	9			Council's Feb 2021 R	esponse							Со	ouncil's	Mav	2021	Unda	te			Story Homes Response M	av 2021

	Elephant Lane			mine shafts, and viability may be affected by the ground conditions (including possible contamination). The site is a former public house which was demolished following a fire. The site had planning permission for demolition of the pub and erection of 18 dwellings which expired in October 2014 (P/2011/0651). It is considered reasonable that the site may come forward with the same trajectory identified in the SHLAA						a pre-application discussion.															the presence of ground contamination issues, it is likely that the site may not be viable. As there has been no clear evidence of developer interest, in the form of a planning application, for the site since the site's inclusion within the SHLAA 2017, it is concluded that the site is not likely to be developable.				
36	Land & Premises at Lords Fold	Br	2.01	The site has May 2018 outline planning permission (ref. P/2017/0789/OUP) for residential development. No subsequent applications have been submitted since and development is dependent on submission of reserved matters before May 2021. Delivery split between 0-5 and 6-10	23	22	0	45	Site obtained outline planning permission (P/2017/0789) in May 2018 for 58 units. Further planning permission relating to the relocation of the existing employment use on a neighbouring site has since been obtained (P/2020/0082/FUL) . Reserved matters / new full application is being progressed	N/A	0	58	0	0	58	0	55	0	55	55	0	0	55	0	S73 application to vary access approved January 2021 (P/2020/0580/S73). No evidence of a reserved matters submitted, which is required to be submitted prior to 23/05/2021. A full planning application may have to be submitted which may delay the delivery of the dwellings. Nevertheless, it remains likely that the dwellings will be delivered within the plan period.	58	0	0	58
58	Former Central Works, Church Road	Br	1.35		0	48	0	48	No Change.	No Change.	0	0	48	0	48	0	48	0	48	0	48	0	48	0	It is considered that the site remains developable within the medium term (6-10 years). This is despite the fact that the site does not benefit from an extant planning permission, nor an application for residential development. There is an absence of information to indicate developer interest.	0	48	0	48

61	Land North and South of Corporati on Street	Br	3.23	put into the 11-15 year time period The site is a narrow strip of land between a train line and a canal, and has numerous constraints that will further reduce the developable area. This reduces the viability for any scheme and there is currently no known developer interest. Given the technical and market challenges, is not considered there is a reasonable prospect that the site can be delivered	0	0	0	0	No change.	No change. There is still developer interest in the site and there has been a pre-application discussion. Additionally, the site continues to be considered for residential use as part of the Council's wider regeneration proposals for the Town Centre.	0	0	16 9	0	169	0	16 9	0	16'	9 0	16 9	0	169	0	Story Homes' previous comments upon the site are still applicable. Despite the Council's report of pre- application discussions, the updated SHLAA proforma indicates that more technical investigation is needed with regard to the constraints. Therefore, it is still considered unlikely that the site will be delivered within the Plan period. The Council's potential inclusion of the site within the Towns Fund bid indicates that the Council are actively trying to secure funding for its development and increases the	0	169	0	169
63	Land at Waterdale Crescent	PDL /Gf	0.26	Most of the site is allocated or used as amenity green space which represents a significant constraint to any development. Therefore it is not considered there is a reasonable prospect that the site can be delivered. There is no clear evidence of developer interest in the site, and the site was identified as deliverable within the next 5 years in the 2012	0	0	0	0	No change.	No change.	0	0	10	0	10	0	10	0	10	0	10	0	10	0	likelihood the site may come forward within the Plan period. SHBC have not provided an updated SHLAA proforma for the site and so it is reasonable to assume there remains no developer interest. The site's status as an amenity green space is considered a significant constraint to development – the site has not been developed within the 5 years that the 2012 SHLAA estimated.	0	0	0	0
64	BT Depot, Sutton Road	Br	1.02	SHLAA. Former BT depot in active use as a donation centre for Willowbrook Hospice. This site forms part of the Moss Nook Watery Lane development (part of phase 3). Although there have been no applications for residential development,	0	0	36	36	No change but wider Moss Nook site (SHLAA site 9) has received grant funding to help deliver phase 1.		0	0	0	36	36	0	36	0	36	0	0	36	36	0	The site is still in active use and although it is included within the hybrid consent for wider Moss Nook site, previous phasing plans included it as a 'possible' phase 3. Harworth, the wider site landowner, has re-discharged the condition requiring an indicative phasing plan, which does not include the site (ref -	0	0	0	0

			developer interest and overall, it is not considered there is a reasonable prospect that the site can be delivered																										
150 Former Red Quarry, Chester Lane	Br	1.92	The site was deemed to be undeliverable in the 2012 SHLAA yet a recent ground investigation indicated that the site is developable. The site is covered by mature trees and Pendlebury Brook runs along the southern border of the site meaning topography is steep and a constraint. The combination of these constraining factors with the lack of developer interest means that the site should be taken out of the supply.	0	0	0	0	No change.	No change however, there is developer interest in the site.	0	0	57	0	5	7	0	57	0	57	0	57	0	57	0	Story Homes' previous comments are still applicable. The potential remediation costs and subsequent impact upon developable area, in combination with other constraints, result in the conclusion that it is not likely the site will be developed within the plan period.	0	0	0	0
151 Land adjacent St.Helens Hospital, Marshalls Cross Road T	Br	1.65		0	0	0	0	No change.	No change.	0	0	0	59	9 5	9	0	59	0	59	0	0	59	59	0	Story Homes' previous comments still apply that this site should be removed from the Local Plan Housing Land Supply. There are significant constraints to developing the site. Firstly the northern boundary of the site is now identified within FZ3, whilst the eastern half of the site is also occupied a cluster of mature trees which would likely need to be replaced on a one for one basis. Furthermore, the 2017 SHLAA identifies that the site may be a historic landfill area and ground investigations would be required. Taking these technical constraints into account, the sites cannot reasonably considered to be developable and should emitted from the Local Plan Housing Land Supply.		0	0	0

	Vulcan Works Wargrave Road								an increase from 74 in the last SHLAA.																Council's May 21 update states that construction is underway and 3 units have been complete. It is reasonable to agree that this site will be developed and applying the standard assumptions, the remaining 86 units will be built out within the 0-5 years.				
HL3 63	Land At Baxters Lane	Br	1.97	Planning permission (P/2013/0671) granted in 2013 (which expired in 2016) for 84 dwellings. Site stalled in 2014 due to remediation issues, therefore put into 11-15 year supply. Unclear what evidence there is that site would be delivered by then given lack of activity. Site should be removed from the supply.	0	0	84	84	No change.	n/a	0	0	0	84	84	0	81	0	81	81	0	0	81	0	A new S.73 application (P/2020/0279/S73) was approved in August 2020. The S.73 varied the conditions of the original consent granted in 2013 due to a new developer owning the site (Edwards Homes) and changing the house types, resulting in a reduction from 84 units to 81. Based on the assumptions in the Housing Need and Supply Background Paper (October 2020), a lead in time of 1.5 years (from August 2020) and build out rate of 30 units per annum is applied. However, construction appears to be underway on the site and therefore it is reasonable to assume that the 81 units will be complete within 0-5 years.	81	0	0	81
HL4 17	Sherdley Remec Ltd Gorsey Lane Clock Face		0.93	Site has RM planning permission (ref. P/2015/0582) approved July 2015. There have been subsequent DoC applications. Site is in process of being built out and therefore it is reasonable to assume remaining 14 homes will come forward.	14		0	14	1 unit outstanding (plot 18).	n/a	17	1			1	0	18		1	1	0		1	0	We agree with this projection and also note that 18 units is being delivered on the site rather than the original 14 stated in the 2017 SHLAA.	1	0	0	. 1
HL4 43	Land Off Lowfield Lane	PDL /GF	3.6	The site has planning permission (P/2012/0405) which was granted on September 2015, a DoC approved in December 2018 and a DoC application are currently	11 4	0	0	114	The site is under construction and 51 units are outstanding.	n/a	53	51	0	0	51	0	11 2	80	32	32	0	0	32	0	We agree with this projection.	32	0	0	32

ref	Site Name	Lan d Typ e	Size (ha)	Story Homes Comments				Change since 2017	Further changes to proformas since 2017	Pre- 20	0-5 yrs	6- 10 yrs	11- 15 yrs	Tot al	Post 2035	Sit e Ca pa city		Ou tsta ndi ng	0-5	6- 10	11-	Plan Peri od	Tota I Post 2035		0-5	6-10	11-16	Plan Period Total
				SHMBC's estimates for lead-in times and delivery rates, it is considered the trajectory for the 0-5 year period should be reduced by 45 dwellings.																				the remaining 90 units would be delivered in the following 6- 10 year period is reasonable and more realistic than the Council's projections.				
HL5 24	Clough Mill Blundells Lane	Br	0.51	Outline permission P/2016/0193/OUP expires December 2019, no Reserved Matters application has been submitted to date. It is reasonable to assume that there may be interest in the site, and it is considered reasonable to assume that (pursuant to a new application or RM application) the site will come forward.	0	10 0	10	Renewal of outline planning permission (P/2019/0812).	n/a	0	10	0	0	10	0	10	0	10	10	0	0	10	0	A new outline permission was granted on 21 <sup>st</sup> February 2020 to renew the original outline consent. Therefore it is reasonable to consider that the 10 units will be constructed within 5 years, thus the site is deliverable.	10	0	0	10
HL5 25	Fishwicks Industrial Estate, Baxters Lane	Br	2.75	Industrial estate still in active use in 2018. An outline application (P/2016/0299/OUP) was approved in November 2016 for 93 dwellings. No RM application has been submitted to date. It is therefore fair to say there is some developer interest in the site, however in the absence of a further application the of total capacity has been split over 0-5 and 6-10 years.	47	46 0		No change. Site has outline planning permission and demolition of some buildings commenced in 2017.	n/a	0	90	3	0	93	0	93			93		0	93	0	No reserved matters or DoC applications have subsequently been submitted pursuant to the outline planning consent. The outline planning consent was granted in November 2016 and condition 1 stipulated that a reserved matters application had to be made within 3 years. Therefore, this consent has expired and the site does not benefit from planning permission and has been removed from the Local plan Housing Supply total.	0	0	0	0
HL5 31	Land At Mere Grange Lowfield Lane	Gr	3.6	An outline approval (P/2016/0567/HYBR) in November 2016 allowed for 120 dwellings. A full application for 82 dwellings (P/2018/0849/FUL) submitted in November 2018, awaiting decision. Development capacity altered accordingly.	82	0 0	82	The site is under construction and capacity reduced to 81.	n/a	15	67	0	0	67	0	82	40	42	42	0	0	42	0	We agree with this revision of the trajectory in light of the planning consent for 82 dwellings which is now partially implemented, resulting in 42 units being included within the Local Plan Housing Supply.		0	0	42
